SUDDEN RICHES.

How a Clothes Peddler Brought Wealth to a Capitalist.

Gabriel Karsky rang the bell. His business was that of a second-hand clothes-dealer, and the bell was that of No. 10 Liberty street, where David Cohen, a capitalist, resided. Karsky kept a little stuffy shop at 335 Sixth street, and often in the pursuit of his calling he took a turn in the fresh air and gathered up old garments to be furnished up as new. Gabriel had often rang the bell at No. 10 Liberty street, and when he did so this rainy afternoon, about a month ago, and Mrs. Cohen came to the door she said, pleasantly, "Nothing to sell to-day, Gabriel."

"I have thought," said Karsky, drawing a crumpled paper from his pocket, "I've got a Louisiana lottery ticket here that is a coupon of ticket 73,987, and I want to sell it." Mrs. Cohen, however, would have nothing to do with the coupon; Karsky insisted and the argument went on until Mr. Cohen impatiently shouted from the sitting-room to take the coupon, give the man a dollar, and let him go. The ticket and Mrs. Cohen's dollar changed places, and Gabriel pocketing the piece went on his way in the quiet contentment of small profits.

On the 16th of February the list of prizes was published in the *Chronicle*, and Mrs. Cohen, looking over it with mild curiosity, saw with amazement that ticket No. 73,987 had drawn the first capital prize, and that her coupon was worth \$15,000. She collected the money through Wells, Fargo & Co.'s bank, and remembering the circumstances of her purchase, sent Karsky \$100.

This was not the only sudden fortune that came to San Francisco from New Orleans last month. Another tenth of the first capital prize was drawn here; \$2,000 came in a lump to an old woman who held a coupon of ticket No. 14,106, and two young men with Murphy, Grant & Co. have become \$5,000 richer by holding a coupon of ticket 45,151, which drew the second capital prize.—*San Francisco (Cal.) Chronicle*, March 3.

An Ancient City Discovered.

The Russian papers report the discovery of an ancient city on the banks of the Dnieper. The group of ruins about five versts below the village of Bielozerovsk has long been known, but it is only lately that excavations have been made upon the site. Traces are now found of regularly constructed streets, water-pipes, foundation walls of houses and rooms, which are full of fragments of pottery, bones, domestic utensils, remnants of statues and architectural ornaments. Pieces of lead and coins have also been found with the inscription "Oliba," so that there is little doubt that it is the site of the city of that name. Only about a tenth part of the ruins have been explored as yet; but digging is to be recommenced in the Spring, when the so-called "kurgane" (burial hillock) will be explored, from which great booty is expected.

To be Placed on Wheels.

General Boulanger has introduced the velocipede into the French army. He has decided to have a certain proportion of the men in the infantry regiments trained to the use of the velocipede, for the transmission of orders and the interchange of communications between the different divisions of the army. This will leave all the horses of the force available for the work in which their services are indispensable. Both the bicycle and tricycle are in use, but the bicycle is found to be the most serviceable, and it will probably be adopted.

Death of Premier Smith.

Hon. William Smith, the Premier of the Province of British Columbia, died Monday at Victoria after a lengthy illness of Bright's disease. He was 45 years of age. He has been a member of the Legislature since the confederation in 1871 and Premier since 1883. He was a writer for the *San Francisco Press* in 1867. Returning to the Province late in 1870, he entered politics.

Was not Consulted.

Colonel Fred Grant denies some of the statements made by General Badeau concerning General Grant's relations to Blaine, and thinks Badeau presumed too much upon the friendship extended to him by General Grant, and adds: "Because (Badeau) was treated kindly he imagined he was consulted about everything. As a matter of fact he was never consulted about anything."

The Hats Came off.

The manager of a Brussels theater has hit upon a happy and effective device for abolishing the high-hat nuisance. He has posted this notice: "Only ladies of a certain age will be allowed to wear bonnets in this establishment." Of course no ladies wish to be considered of "a certain age," and the hats came off.

For lame back, etc., or chest, use Shiloh's Lung Restorer. Price 25 cents. For sale by Osburn & Shoemaker.

A New Swindle.

Another new swindle is being practiced upon the gulleless granger. Two rogues watch papers for stray notices, when one of them goes and looks at the animal. Of course, on application, the unsuspecting farmer shows the beast, and the fellow decides it is not his, then he returns to his partner and describes it minutely to him. Number two goes to the farmer, and after proving by proper description that he is the owner of the animal, says he cannot take it away and offers to sell it at a bargain. The farmer buys it, and in a few days the owner comes along and claims the animal, and of course the farmer is just out that much.

Bad Effects from Lovelock Whisky.

Saturday's *Silver State* says: "Doc" Tarener, of Lovelock arrived here with an insane miner named Samuel Harris. It is said that Harris imagines that there is much valuable knowledge in his head, and that his most intimate friends disappointed him to acquire this knowledge, but did not succeed. In putting him together again they misplaced the joint of one of his knees, in consequence of which he limps a little. He has been working for George Lovelock at Arabia, and has been drinking too freely lately.

Home Testimony.

Gilmore's Aromatic Wine has been produced at Pavilion, Genesee Co., N. Y., for 15 years past. Batavia is the largest town in the county, and the demand there has steadily increased every year. It was first endorsed by the Genesee Co. Medical Society, and a number of leading physicians used it in their practice. A large demand at once sprung up for it and the druggists were compelled to keep it in stock.

The sales in Batavia are now 1,600 bottles a year at retail, and the goods are ordered by the gross. No other remedy has half that sale in the town. It takes a medicine of first-class merit to achieve such a reputation. Agent for Reno, W. Pluniger.

ASTONISHING SUCCESS.

It is the duty of every person who has used Boscche's German Syrup to let its wonderful qualities be known to their friends in curing consumption, severe coughs, croup, asthma, pneumonia, and in fact all throat and lung diseases. No person can use it without immediate relief. Three doses will relieve any case, and we consider it the duty of all druggists to recommend it to the poor, dying consumptive, at least to try one bottle, as \$6.00 dozen bottles were sold last year, and no one case where it failed was reported. Such a medicine as the German Syrup cannot be too widely known. Ask your druggist about it. Sample bottles free, sold at 10 cents. Regular size, 75 cents. Sold by all druggists and dealers in the United States and Canada.

Notice!

Manning & Jacques have been appointed plumbers for the Reno Water Co. All other persons are warned against tampering with the mains or making connections thereto. Those having plumbing to do can only protect themselves by employing the best workman, and we recommend the above firm to any who may require such services. A. A. EVANS, Supt. Reno Water Co.

Merit Will Tell.

Was never better demonstrated than when "Fryer's Abietine Remedies" were awarded diplomas at the late California State Fair at Sacramento and at the Mechanics Institute at San Francisco. W. Pluniger is agent for these celebrated "Abietine Remedies" and he offers to return your money if they do not give satisfaction. In buying, be sure the fac-simile signature of D. F. Fryer is on each, as none are genuine without it.

Make no Mistake.

By dispelling the symptoms so often taken for consumption, SANTA ABIE has brought gladness to many a household. By its prompt use for breaking up the cold that too often develops into that fatal disease, thousands can be saved from an untimely grave. You make no mistake by keeping a bottle of this pleasant remedy in your house. CALIFORNIA CAT-R-CURE is equally effective in eradicating all traces of nasal catarrh. Both of these wonderful California remedies are sold and warranted by Osburn & Shoemaker, Reno, Nevada.

Unnecessary Misery.

Probably as much misery comes from habitual constipation as from any derangement of the functions of the body. It is difficult to cure for the reason that no one likes to take the medicines usually prescribed. Hamburg Fig Pills were prepared to obviate this difficulty, and they will be found pleasant to the taste of women and children. 25 cents. At all druggists. J. J. Mack & Co., proprietors, S. F.

Vitiated Blood

Scrofulous, Inherited and Contagious Humors Cured by CUTICURA.

THROUGH the medium of one of your papers received through Frank T. Wray, Druggist, Apollo, Pa., I became acquainted with your CUTICURA REMEDY, and take this opportunity to testify to you that your use has permanently cured me of one of the worst cases of blood poisoning, in connection with erysipelas, that I have ever seen, and this after having been pronounced incurable by some of the best physicians of my country. I take great pleasure in forwarding to you this testimonial, unsolicited as it is by you, in order that others suffering from similar troubles may be encouraged to give your CUTICURA REMEDY a trial.

SCROFULOUS ULCERS.
James E. Richardson, Custom House, New Orleans, on oath, says: "In 1870 scrofulous Ulcers broke out on my body until I was a mass of corruption. Every thing known to the medical faculty was tried in vain. I became a mere wreck. At times could not lift my hands to my head, could not turn in bed, was in constant pain and looked upon life as a curse. No relief or cure in ten years. In 1880 I heard of the CUTICURA REMEDY, used them and was perfectly cured."
Sworn before U. S. Com. J. D. Crawford.

ONE OF THE WORST CASES.
We have been selling your CUTICURA REMEDY for years, and have the best complaint yet to receive from a purchaser. One of the worst cases of Scrofulous Ulcers was cured by the use of CUTICURA and CUTICURA SOAP. The soap takes the "cake" here as a medicinal soap.

WEDNESDAY.....MARCH 30, 1887

The remarks of Judge Hornblower in the libel case of Tuska against Hearst, of the San Francisco Examiner, Monday, are much to be commended. The judge took the rational ground that it is against public policy to place restraints on the liberty of the press. Without such a liberal construction of the libel laws, newspapers are almost an impossibility. If a man is a scoundrel, remarks the Post, the public interest demands that the fact should be known. A cold statement of such a truth, unmixed with malice, is in the nature of a privileged communication, and bears no resemblance to those covert slanders which find such effectual circulation when passed from mouth to mouth, and about whose origin no one seems to know anything. Every man has an undisputed right to be confronted by the witnesses against him, and he could not well have a more tangible and responsible accuser than a reputable paper. Convictions of libel against such papers are exceedingly rare, and they might be less frequent with propriety. The recent decisions in newspaper libel cases seem to indicate that they will be so.

The actual military strength of Russia—that is, the number of men, horses and guns which can be put in the field to confront an enemy—is a matter about which there has always been considerable doubt. One recent writer estimated the Czar's army at a cool four millions. Colonel Vogt's "Die Europäischen Heeren der Gegenwart," just published, gives figures in detail which show that this is a gross exaggeration. He alleges that the total war strength of the Russian army, inclusive of every creature that bears, or can be called upon to bear arms, from the cuirassier guards of the capital to the wild horsemen of the Amoor, does not amount to a couple of millions. The actual figures are: Officers, 41,187; men, 1,882,630; horses, 350,958; guns, 3,672. Out of this strength not more than one million could possibly be made available against an enemy, the rest being required to protect a very extended frontier, etc.

It is rather interesting to observe that the New York Central Railroad has announced the success of the experiment at steam heating of railway cars. This indicates that the railroad experts who declared steam heating to be impracticable were not entirely infallible; while the uninformed newspapers which believed that what had already been done could be kept up, were not so utterly misinformed as the railway managers asserted. Let us hope that the New York Central's example will convince the other trunk lines that they have no longer any excuse for clinging to the deadly car stove.

The Nevada Union of yesterday copies an article published in the GAZETTE Monday evening concerning the Mohawk railroad trouble and complains that "it does not state very clearly what the matter is about the employment of Chinese on the Mohawk railroad," and suggests that the GAZETTE "should talk more plainly." If the editor of the Union had read Saturday's issue of the GAZETTE he would have learned the character of the said trouble. To rehash the particulars of an affair every time it is referred to in a newspaper is hardly necessary.

The Salvation Army is reported to be converting the Indians. Certainly this field of effort seems to be a very useful one for that organization. It can be relied upon at least that if the Salvation Army does not solve the Indian problem, the Indians will solve the Salvation Army problem.

The Reno Journal will enter upon its twenty-seventh volume tomorrow.

New Passenger Regulations.

Pittsburg, Pa., March 30. The Pennsylvania Company, operating the lines west of Pittsburg, issued its official circular to-day for its passenger department, in conformity with the provisions of the Inter-State Commerce law. The agents are instructed to restore passenger rates to the regular tariff, and to be sure to sell no tickets for less than the specified rates. All sub-agents are to be discharged at once. Special or reduced rates for all classes of persons, including those heretofore issued on account of freight shippers, manufacturers, commercial travelers, theatrical companies, circuses, baseball clubs, students, hunters, fishermen, steamboat men, police members of the press, hotels, charity laborers, National Soldiers' Homes, Mayors, orders and Sisters of Charity are abolished. Mileage tickets of every kind, except advertising, are withdrawn. Contracts made with local newspapers for the year 1887, to pay for advertising and transportation however, will be carried out. Local tickets to ministers will be continued at two cents per mile, as also round trip tickets for 30 days. The circular is dated March 30th, and will go into effect on April 1st.

A Murderous Prophet.

MACON, Ga., March 30. Six out of the 11 persons who were poisoned by the Voodoo doctor, Bonner, in Baldwin county, are now dead and the five living will die. The sixth death was that of the father, John Harris. He openly expressed a doubt as to the powers possessed by the Voodoo, whereupon the latter prophesied that for this want of faith, not one of the Harrieses should live the month through. The father alone, who had not eaten much of the fatal meal recovered sufficiently to move, but when he recovered he was a raving maniac, and had to be confined in the lunatic Asylum. He had fearful visions and would not eat for fear of being poisoned, and soon died in terrible contortions. The news from the settlement is that the survivors cannot live much longer, so that it is likely that the Voodoo's prophecy will be fulfilled, and that not one of the family will live to see the new moon come in. As soon as the white people learned the facts, Bonner was hidden by the colored people and has not yet been found.

Picked Up at Sea.

New York, March 30. The bark, Scotts Bay, which arrived yesterday from Lisbon, reports that she sighted on March 24th, a water-logged and dismantled vessel. A boat was lowered, though the sea was very heavy, and into it, clambered the mate and four seamen. After several attempts, the vessel was boarded. The captain and second mate were the only survivors, the mate, steward and two colored seamen having died the previous night. The two survivors were almost exhausted; they were not able to talk and had to be hoisted on board the Scotts Bay. They had been lashed for 48 hours on top of a fly house without food or water, and their clothing was torn to rags. The vessel was the schooner Marcus Davis, Captain Williams, from Fernandi for Philadelphia.

A Radical Change.

PITTSBURG, Pa., March 30. The entire force of clerks in the transfer station of the Pennsylvania railroad in this city have been notified that after the present month's business has been finished, their services will no longer be required. Nearly 100 men, who were receiving salaries from \$50 to \$150 per month, will be thrown out of employment by the abandonment of the station, which is believed to be one of the first violent effects of the passage of the Inter-State Commerce bill. Heretofore all freight from either east or west, passing from the main line of the Pennsylvania road to the main line of the Pennsylvania company, or vice versa, has been re-billed; and transferred in this city, but in the future, all freight will be shipped through to its destination without any transferring whatever.

An American Soldier Murdered.

St. Louis, March 30. A special from Rio Grande city, Texas, says Corporal Boyer and another soldier were approached by four Mexicans on the Government reservation at Fort Ringgold, on the evening of the 26th instant. One of the Mexicans opened fire, shooting Boyer through the heart. The other soldier hastily retreated. Three Mexicans were arrested last night on suspicion. The surviving soldier declares himself able to identify the assassins.

A Desperado Killed.

SANTA FE, March 30. It was reported here last night that Marino Leyba, the notorious outlaw

and desperado, and the leader of the gang who have terrorized Central New Mexico for six months, had been killed while resisting arrest near Antelope Springs, 70 miles south of here. The report was confirmed to-day by the arrival of Joaquin Montero and Carlos Jaconie with the body. They were deputized by Sheriff Chavez, of Santa Fe county, to make the arrest. They met Leyba on a mountain trail while on the lookout for him. When ordered to surrender, the outlaw pulled a pistol, and Montero and Jaconie pulled theirs and their three shots sounded like one. Montero got a bullet through his hat, but Leyba fell dead at his feet, shot through the head. Leyba led the gang that murdered Col. Charles Potter, step-son of Governor Vanzandt, of Rhode Island, in the Dolores Mountains in 1880, and buried the body after taking several hundred dollars from it. Four of the gang were captured by Sheriff Armitage and were taken to Albuquerque, where they were lynched. Leyba, the fifth member, escaped to the mountains, but commenced operations again after all the witnesses were dead. He was afterwards convicted for stealing and sent up for five years in the penitentiary, and when discharged six months ago, he immediately returned to a flourishing mining country and re-organized his gang. They would shoot up towns, steal horses and rob travelers. Their last outrage, was the murder and robbery of Lackey and Tesler, near Antelope Springs. These men owned 20,000 sheep. Lackey was killed in his house and his body burned, and Tesler was shot in the back while running. Two of Leyba's gang were arrested for murder and are now held for trial. A reward of \$1,200 was offered for Leyba. His death will break up the gang. A great many people have visited the Santa Fe jail and have viewed the body. The people of Southern New Mexico are greatly pleased over the death of the outlaw, and are thoroughly organized for the suppression of the rest of the band.

Deserving of Hemp.

COLUMBIA, S. C., March 30. Information has been received here of an outrage out on Cooper river, near Oakley. A large number of colored laborers who had been working on a river plantation on one side of the river, were being conveyed across to their homes on the other side on a flat boat. When the boat was in the middle of the stream it was passed by the sloop, Carrie and Hattie. After passing about 100 yards, the sloop came about, and notwithstanding there was ample room in the river, she ran directly into the flat boat, which was partially split open, and a number of men were knocked into the river and four of them were drowned. The jury on the inquest put the responsibility on Captain Poinsett, who has been committed to jail.

Death of General Ripley.

NEW YORK, March 30. General Roswell S. Ripley was stricken by apoplexy while at breakfast at the New York hotel at 9 o'clock yesterday morning and died at 8 o'clock last night.

FOREIGN DISPATCHES

An Effective Speech.

LONDON, March 30. Gladstone's speech delivered in the House of Commons last night, in opposition to the coercive measures of the Government in relation to Irish affairs, is widely commented upon as an effective exposure of the feebleness of the Government's reasons for demanding coercion. The strength of his reasoning is admitted by Conservatives and is felt keenly by the Unionists and Liberals, more of whom threatened to secede unless the coercion bill be refused to its simple provisions against boycotting and the "plan of the campaign." The Conservatives already talk of dropping the proposals relating to the transfer of jury trials, especially since the Unionists' powers in the provinces declare them untenable. The Gladstonians are confident they can delay the passage of the bill until May, and in the meanwhile are hopeful that an evolution of events will throw the whole scheme. The whips on each side have forbidden members to be absent during the holidays unless paired. Radical societies throughout the country are passing resolutions against the coercion bill, pronouncing it impolitic and unjust. The English radical press denounces the measure in language of passionate indignation.

The Desperate Nihilists.

St. Petersburg, March 30. A wholesale merchant of St. Petersburg, reputed to be worth millions, has been shot and killed by a man to whom he refused to give 80,000 roubles towards the Nihilist fund. The murderer has been arrested. Other Russian capitalists are fearful of suffering a similar fate. They are receiving letters threatening them with immediate death if they do not comply with the demands to furnish money for the "common cause."

Encouraged by the Prince.

LONDON, March 30. Mrs. James Brown Potter, who made her debut at the Haymarket Theatre last evening, was very favorably received by a brilliant audience. The Prince of Wales expressed himself as very much pleased with her performance and predicted for her a successful theatrical career.

Another Murderous Attempt.

BERLIN, March 30. Authentic information has been received from St. Petersburg, that a fresh attempt was made upon the Czar's life at Gatchina Palace yesterday. The Czar was not injured.

WESTERN DISPATCHES

A Mysterious Killing.

SAN BERNARDINO, March 30. Last night at about 7 o'clock, a man named Ferris, an engineer on the California Southern railroad, running between this city and Colton, was called

to the door of his residence in this city by a carpenter named Ed. Colman, and deliberately shot down with a Winchester rifle, the ball passing through the fleshy part of the arm and then through the body. Colman gave himself up at once to the sheriff. Ferris refused to make a statement, and died about 12 o'clock, 5 hours after the shooting. The matter is shrouded in mystery, as both are spoken of as quiet men.

Dwelling House Burned.

MADERIA, Cal., March 30. The house of B. W. Martin, near Borden, was burned about 4 o'clock yesterday afternoon. His two little children were burned badly, and the youngest, three years old, will probably die. The fire originated from the bursting of a lamp in an incubator. The mother and sister-in-law were both burned about the hands in saving the children. The house and everything in it was lost.

LOCAL NEWS.

Happenings of the Day in Reno and Vicinity.

A Grand Show Coming.
Baird's Mammoth Minstrels will appear at the Nevada Theater on the evening of April 5th. The combination is very highly spoken of by the press of the towns in which it has recently appeared. The music, vocal and instrumental, is fine, and the jokes, hits, etc., new. The other features of the entertainment are good and well calculated to delight an audience. Reserved seats are now on sale at Thurston & Jamison's. See advertisement on the second page.

Another Fine Building Proposed.
The work of constructing a two-story iron-front building, 22x80 feet, on the lot on Virginia street that adjoins the First National Bank building, will be commenced at once, the lot having been cleared this morning of the small frame structures on it. The lower or ground floor of the proposed building, when finished, will be used as a Postoffice. Wm. Thompson, manager of the Lake estate, has the work in hand.

A Valuable Marble Discovery.
Israel Luce, Superintendent of the Inyo marble quarries, passed through Reno last evening for Sacramento. He informed a GAZETTE reporter that he found, the other day, the original ledge or bed of marble, and that he sunk into it a depth of six feet, and found it solid and compact, and by all means the most serviceable ever discovered on the Pacific Coast. He believes the bed is at least 20 feet thick.

Live Stock Shipments.
Sixteen carloads of beef cattle loaded at Iron Point, Humboldt county, and consigned to Grayson, Owen & Co., Oakland, Cal., arrived here last night and were rested. They will be forwarded to their destination this evening. At the same time two carloads will be sent to E. and H. Moffatt, San Francisco, and two to James Bishop at Dutch Flat.

The Cortez Mines.
On Thursday last S. Wenban, the owner of the famous Cortez mines in Eureka county, shipped to San Francisco 35 bars of bullion valued at \$40,000. Nothing definite has been learned here as to whether these properties have yet been sold and transferred to the English capitalists who bonded them for \$1,300,000.

A Livery Stable Leased.
John A. Potter, formerly of Eureka, has leased the Wilson & Hammond livery stables, and will take possession on April 1. He will make several additions to the business in the way of new buggies and carriages and a number of fine driving and saddle horses.

Mining in Nye County.
Says the Belmont Courier of the 26th instant: The outlook for a revival of mining in Nye county is extremely encouraging. Ophir continues to give forth a steady stream of bullion; the New Cincinnati Company, of Union District, is adding its quota to the silver product; the Barcelona mine at Spanish belt continues to yield rich ore, which is shipped to Salt Lake for reduction; in Philadelphia District the Belmont mine is producing high grade ore, and so also is Latty's mine; the mines of Tybo are looking well and are now in shape to produce large quantities of good milling ore and the mill will be ready to drop stamps about the first of May; the chlorides in the Ione mines are extracting fine ore, and J. B. Massey and A. Lebeau are shipping rich ore from Lodi. Nye's mines will be extensively worked this year, and work will be resumed on mines that have long lain idle, early this Summer. The mineral is here in vast quantities and patiently awaiting capital and enterprise to extract it and turn it into bullion. Mining will always pay in Nye when the work is prosecuted in a legitimate manner.

The Crown Point and Belcher.
Says the Virginia Chronicle: The rumor that the continued shut-down of the Crown Point and Belcher is due to a refusal of the mine management to ship any more ore to the mills until the rate of transportation is reduced to 50 cents per ton in place of \$1, the rate now charged, is not only unfounded, but is absurd, from the fact that the Virginia & Truckee Railroad Company owns a controlling interest in the Gold Hill mines and is the sole owner of the stamp mills on the Carson river, with the single exception of the Morgan steam mill at Empire. The ore lately produced from the Crown Point and Belcher is represented as very low grade. A conference was held below in relation to some project for cutting down the cost of converting it into bullion, in which the rate of transportation Jones is expected to arrive in Gold Hill from San Francisco the current week, when it is expected that the work of extracting ore from the Crown Point and Belcher will be resumed. Pending its suspension the Santiago, Mexican and Vivian mills have been put in thorough repair.

Another Railroad Circular.
The following circular has just been issued:

CARSON AND COLORADO R. R. CO., GENERAL OFFICE.

CARSON, NEV., April 1, 1887.

To Agents and Conductors and for the Information of the Public:

The Act to regulate commerce, known as the Interstate Commerce law, which takes effect April 4th, 1887, prohibits, under severe penalties, any railroad company engaged in interstate commerce, from issuing free passes except to railroad officers and employees.

Therefore, passes granting free transportation over the interstate line of this company, issued to those other than railroad officers and employees, will not be honored for any interstate trip or any part thereof, except in the following cases: For postal clerks of the Railway Mail Service, when traveling in discharge of their duties—that is, only when in actual charge of the United States mails; for officers, messengers, and route agents of Wells, Fargo & Co.'s express; for officers and employees of the Western Union Telegraph Company; for men in charge of live stock, or other property in transit, requiring attention en route.

After the 3d instant, baggage must not be checked to interstate destinations on passes presented by persons other than those specified, and conductors are instructed to take up such passes if offered for an interstate trip, or any part thereof, and require payment of regular rates of fare for the whole trip.

The Interstate Act also prohibits the sale or issuance of any tickets for an interstate trip at reduced rates from the rates provided for in company's printed tariff at the time in force. Agents are therefore instructed not to sell tickets to interstate destinations upon half or two-third rate permits if presented thereafter.

Commencing this day, the allowance for baggage will be uniform—that is, 150 pounds free for every full ticket, and 75 pounds for each half ticket.

D. A. BENDER, General Freight and Passenger Agent, H. M. YERINGTON, General Superintendent.

*Account of contract and in consideration of services.

Spooner's Station Burned.

Says yesterday's Carson Appeal: About 1 o'clock on Sunday last Spooner's hotel on the Lake Tahoe road was burned to the ground by fire originating in the kitchen. Mr. Spooner only saved a few trunks. This is his second loss.

Instantly Killed.

Mr. Richardson, the superintendent of railroad bridgework, on the California and Oregon Road, fell head first from the false work of the bridge over the Klamath river, Saturday, his head striking a rock, causing his death.

Notice!

Manning & Jacques have been commissioned by the Reno Gas Co. as a competent firm to do their gas-fitting, and the company would recommend parties having work of the above character, to employ only the best workman, thereby saving much annoyance and expense.

W. M. THOMPSON, Supt. of Reno Gas Co.

A party of eight or ten Japanese were bound overland. Most of them are connected with the Navy of Japan, and are on their way home from an extensive tour through Europe.

Parties down from the Comstock last night report a very hopeful feeling there among business men and others, despite the "softness" of the stock market. The mines, they say, do not warrant the break in mining shares.

An Austrian Giant.

There appeared at the London, Eng., Pavilion, a short time ago, the tallest man whose height has been recorded in modern times. The new giant is an Austrian named Winkelmeier, and his height is 8 feet 9 inches, which is over 1 foot more than that of Chang, the Chinese giant. Winkelmeier was born at Friedberg, near Salzburg, Upper Austria, in 1855, his parents being in humble station of life. He is the youngest of a family of five children, none of whom are of abnormal stature, nor are his parents or grandparents unusually tall. His fingers span two octaves on a piano, and the stretch of his arms is enormous. He showed no development of this extraordinary growth up to the age of 14, but since then he has been growing rapidly, and medical authorities in Berlin and Paris have expressed the opinion that he is likely to increase till he is 25. The young man is healthy, strong and intelligent.

High Priced Physicians.

Miss Wolfe, of New York, pays her physician a salary of \$5,000 a year. Mrs. Alexander T. Stewart retained three doctors at an aggregate cost of \$40,000, and called in one of them nearly every day. Mrs. William Aston pays to Dr. Fordyce Barker an average of \$20,000. Mrs. Cornelius Vanderbilt spends \$10,000 a year in the same way.

Ladies

In delicate health and all who suffer from habitual constipation, will find the pleasant California liquid fruit remedy, Syrup of Figs, more easily taken, and more beneficial in effects than any other remedy. It acts promptly yet gently on the bowels, kidneys, liver and stomach, and does not sicken or debilitate. For sale by Wm. Plummer, Reno, Nevada.

Their Number Restricted.

A law intended to restrict the number of lawyers in its way in the New York Assembly. It provides that new lawyers must take out license at \$500 for attorneys in New York, and \$100 in other cities in the State; \$1,000 for attorneys and counsellors in New York City and \$100 in other cities.

A Long Tunnel.

A tunnel to be 9,850 feet in length is being cut through the Cascade mountains on the Northern Pacific Railroad. The work is to be completed in about 14 months. About 4,000 feet is already finished. The tunnel is known as the "Stampede."

"I Don't" "I Cure." Is the exclamation of thousands suffering from catarrh. To all such we say: Catarrh can be cured by Dr. Sage's Catarrh Remedy. It has been done in thousands of cases; why not in yours? Your danger is in delay. Enclose a stamp to World's Dispensary Medical Association, Buffalo, N. Y., for pamphlet on this disease.

An Important Arrest. The arrest of a suspicious character upon his general appearance, movements or companionship, without a flag until he has robbed a traveler, from a horse, murdered a fellow man, is an important function of a sure detective. Even more important is the arrest of a disease which, if not checked, will blight and destroy a human life. The frequent cough, loss of appetite, general languor or debility, pallid skin and bodily aches and pains, announce the approach of pulmonary consumption, which is promptly arrested and permanently cured by Dr. Pierce's "Golden Medical Discovery." Sold by druggists.

Weak lungs, spitting of blood, consumption and kindred affections, cured without physician. Address for treatise, with 10 cents in stamps. World's Dispensary Medical Association, 655 Main street, Buffalo, N. Y.
